

Notice of Violation of IJET Publication Principles

“Kano-Based Quality Model for Differencing Intelligent Green Building Design Strategies”

by Yi-Kai Juan and Sheng-Jhao Hsu Huang

International Journal of Engineering and Technology

Volume 5, Number 1, February 2013, Page(s): 32-37

After careful and considered review of the content and authorship of this paper by a duly constituted expert committee, the above paper has been found to be in violation of IJET's Publication Principles.

This paper cited a large percent of original text without permission obtained from the author. Due to the nature of this violation, reasonable effort should be made to remove all past references to this paper, and future references should be made to the following articles:

Hung-Ting Chen, "KANO two-dimensional quality model to investigate intelligent green building design strategies," M.S. thesis, Department of Architecture, National Taiwan University of Science and Technology, Taiwan, 2012.
