

IACSIT International Journal of Engineering and Technology

CONTENTS

Volume 5, Number 6, December 2013

- Nonlinear Finite-Element Analysis of Double-Skin Steel-Concrete Composite Shear Wall Structures.....648
Ma Xiaowei, Nie Jianguo, and Tao Muxuan
- Use of Innovative Shotcrete-Tube Technology in Excavation Mechanism Instead of Bentonite Clay
Cycling.....653
Shahriar Shahabi, Hassan Liravi, and Tabasom Moradi
- Strengthening of Reinforced Concrete Slab-Column Connection Subjected to Punching Shear with FRP
Systems.....657
G. I. Khaleel, I. G. Shaaban, K. M. Elsayedand, and M. H. Makhlof
- Experimental Study for Evaluating Structural Behavior of RC Beams Strengthened by Different Width of FRP
Layers.....662
Naeun Kim, Young-Hee Kim, and Hee Sun Kim
- Nonlinear Finite Element Analysis of Shotcrete Lining Reinforced with Steel Fibre and Steel Sets.....666
Jeong Soo Kim, Moon Kyum Kim, and Han Kyu Yoo
- Punching Shear Behavior under Sustained Load.....671
Sevket Ozden, Hakan Erdogan, and Erkan Akpınar
- A Simplified Method for Designing RC Slabs under Concentrated Loading.....675
Morteza Fadaee, Atefeh Iranmanesh, and Mohammad J. Fadaee
- Meso-Scale Numerical Modeling of the Mechanical Behavior of Reinforced Concrete Members.....680
L. C. Wang
- Investigation on the Seismic Behavior of Cable-Stayed Bridges Using Incremental Static Analysis.....685
Morteza Fadaee, Hossein Khatami, Mahdi Vajdian, Mostafa Fadaee, and Mohammad J. Fadaee
- Application of Influence Lines on Static Analysis of Cable-Stayed Bridges.....689
F. Masoumi and A. Mehrabzadeh
- Condition Assessment of Reinforced Concrete Bridges by Combined Nondestructive Test Techniques.....694
F. Masoumi, F. Akgül, and A. Mehrabzadeh
- Influence of Specimen Thickness on Cracking Behavior in Restrained Shrinkage Ring Test.....698
W. Dong, X. M. Zhou, and Z. M. Wu
- Investigation on Seismic Behavior of CFRP Retrofitted Reinforced Concrete Column with Partial Deterioration:
Experimental and Numerical.....703
Z. M. Wu, D. X. Hou, and W. Dong

Inelastic Displacement Ratio Spectrum for Near-Fault Ground Motions.....	708
<i>Gaylord Kabongo-Booto and George D. Hatzigeorgiou</i>	
Effect of Orientation on Indoor Thermal Neutrality in Winter Season in Hot Arid Climates Case Study: Residential Building in Greater Cairo.....	712
<i>A. Sedki, N. Hamza, and Theo Zaffagnini</i>	
Chloride Penetration Depth in Silica Fume Concrete.....	717
<i>Gladis Camarini, Paulo Sérgio Bardella, and Denise Cristina Barbosa</i>	
Seismic Performance of Building Structures with Spatial Variability.....	721
<i>Jinkoo Kim, Joonho Lee, and Seungho Han</i>	
Sustainable Buildings with Their Sustainable Facades.....	725
<i>Özlem Eren and Banu Erturan</i>	
Soil Moisture Content and Density Prediction Using Laboratory Resistivity Experiment.....	731
<i>Mohd Hazreek Zainal Abidin, Rosli Saad, Fauziah Ahmad, Devapriya Chitral Wijeyesekera, and Ahmad Shukri Yahya</i>	
Removal of Color, Suspended Solids, COD and Ammonia from Partially Stabilize Landfill Leachate by Using Iron Chloride through Coagulation Process.....	736
<i>Nur Shaylinda Mohd Zin, Hamidi Abdul Aziz, Nordin Mohd Adlan, Azlan Ariffin, Mohd Suffian Yusoff, and Irvan Dahalan</i>
