

IACSIT International Journal of Engineering and Technology

CONTENTS

Volume 5, Number 6, December 2013

Nonlinear Finite-Element Analysis of Double-Skin Steel-Concrete Composite Shear Wall Structures.....	648
<i>Ma Xiaowei, Nie Janguo, and Tao Muxuan</i>	
Use of Innovative Shotcrete-Tube Technology in Excavation Mechanism Instead of Bentonite Clay Cycling.....	653
<i>Shahriar Shahabi, Hassan Liravi, and Tabasom Moradi</i>	
Strengthening of Reinforced Concrete Slab-Column Connection Subjected to Punching Shear with FRP Systems.....	657
<i>G. I. Khaleel, I. G. Shaaban, K. M. Elsayedand, and M. H. Makhlouf</i>	
Experimental Study for Evaluating Structural Behavior of RC Beams Strengthened by Different Width of FRP Layers.....	662
<i>Naeun Kim, Young-Hee Kim, and Hee Sun Kim</i>	
Nonlinear Finite Element Analysis of Shotcrete Lining Reinforced with Steel Fibre and Steel Sets.....	666
<i>Jeong Soo Kim, Moon Kyum Kim, and Han Kyu Yoo</i>	
Punching Shear Behavior under Sustained Load.....	671
<i>Sevket Ozden, Hakan Erdogan, and Erkan Akpinar</i>	
A Simplified Method for Designing RC Slabs under Concentrated Loading.....	675
<i>Morteza Fadaee, Atefeh Iranmanesh, and Mohammad J. Fadaee</i>	
Meso-Scale Numerical Modeling of the Mechanical Behavior of Reinforced Concrete Members.....	680
<i>L. C. Wang</i>	
Investigationon the Seismic Behavior of Cable-Stayed Bridges Using Incremental Static Analysis.....	685
<i>Morteza Fadaee, Hossein Khatami, Mahdi Vajdian, Mostafa Fadaee, and Mohammad J. Fadaee</i>	
Application of Influence Lines on Static Analysis of Cable-Stayed Bridges.....	689
<i>F. Masoumi and A. Mehrabzadeh</i>	
Condition Assessment of Reinforced Concrete Bridges by Combined Nondestructive Test Techniques.....	694
<i>F. Masoumi, F. Akgil, and A. Mehrabzadeh</i>	
Influence of Specimen Thicknesson Cracking Behaviorin Restrained Shrinkage Ring Test.....	698
<i>W. Dong, X. M. Zhou, and Z. M. Wu</i>	
Investigation on Seismic Behavior of CFRP Retrofitted Reinforced Concrete Column with Partial Deterioration: Experimental and Numerical.....	703
<i>Z. M. Wu, D. X. Hou, and W. Dong</i>	

Inelastic Displacement Ratio Spectrum for Near-Fault Ground Motions.....	708
<i>Gaylord Kabongo-Booto and George D. Hatzigeorgiou</i>	
Effect of Orientation on Indoor Thermal Neutrality in Winter Season in Hot Arid Climates Case Study: Residential Building in Greater Cairo.....	712
<i>A. Sedki, N. Hamza, and Theo Zaffagnini</i>	
Chloride Penetration Depth in Silica Fume Concrete.....	717
<i>Gladis Camarini, Paulo Sérgio Bardella, and Denise Cristina Barbosa</i>	
Seismic Performance of Building Structures with Spatial Variability.....	721
<i>Jinkoo Kim, Joonho Lee, and Seungho Han</i>	
Sustainable Buildings with Their Sustainable Facades.....	725
<i>Özlem Eren and Banu Erturan</i>	
Soil Moisture Content and Density Prediction Using Laboratory Resistivity Experiment.....	731
<i>Mohd Hazreek Zainal Abidin, Rosli Saad, Fauziah Ahmad, Devapriya Chitral Wijeyesekera, and Ahmad Shukri Yahya</i>	
Removal of Color, Suspended Solids, COD and Ammonia from Partially Stabilize Landfill Leachate by Using Iron Chloride through Coagulation Process.....	736
<i>Nur Shaylinda Mohd Zin, Hamidi Abdul Aziz, Nordin Mohd Adlan, Azlan Ariffin, Mohd Suffian Yusoff, and Irvan Dahalan</i>
