

IACSIT International Journal of Engineering and Technology

CONTENTS

Volume 6, Number 6, December 2014

• Civil Engineering

- Development of Public Transport System Strategies to Control Urban Sprawl.....443
L. Ambarwati, R. Verhaeghe, A. J. Pel, and B. Van Arem
- Simulation of Thailand Flood 2011.....452
S. Wongsu
- Evaluating the Node Importance in Lifeline Systems Based on Variable Fuzzy Clustering.....459
Mingyuan Zhang and Shisen Feng
- Optimum Cost Design of Reinforced Concrete Retaining Walls Using Hybrid Firefly Algorithm.....465
R. Sheikholeslami, B. Gholipour Khalili, and S. M. Zahrai
- Analysis on the Technology Characteristic of a New Kind of Assembly Steel Frame System.....471
Z. H. Zhang and X. P. Shu
- Inelastic Versus Elastic Displacement-Based Intensity Measures for Seismic Analysis.....476
L. Lin and Y. L. Gao
- Identification of Hazardous Road Sections: Crash Data versus Composite Index Method.....481
Intan Suhana M. R., Hussain Hamid, Law Teik Hwa, and Ahmad Farhan
- Application of Friction Pendulum Damper in Braced Frames and Its Effects on Structural Response.....487
S. M. Zahrai, M. S. Bozorgvar, and M. H. Bozorgvar
- Concentration of Total Suspended Solids (TSS) Influenced by the Simulated Rainfall Event on Highway Embankment.....493
S. M. H. Shah, K. W. Yusof, Z. Mustaffa, and A. Mustafa
- #### • Sustainable Urban Development
- The Causes which Influence the Change of Spatial Development Pattern in Taipei Metropolitan Area.....497
K. C. Hsu, T. Y. Lai, and C. H. Lee
- Apply Space Syntax to Design a TOD Land Use Plan.....503
C. N. Li and Y. K. Hsieh
- Importance of Humane Design for Sustainable Landscape.....508
S. Toofan
- #### • Electronics and Communication
- UWB KSA Sign Shape Slot Microstrip Antenna Array Mutual Coupling Reduction for Official Application
.....513

Mohamed I. Ahmed, A. A. Sebak, Esmat A. Abdallah, and Hadia M. Elhennawy

An Internet-Enabled Wireless Multi-Sensor System for Continuous Monitoring of Landslide Processes.....520

Kay Smarsly, Kristina Georgieva, and Markus König

Adaptive Algorithms Based Cross Talk Reduction Techniques Using Efficient Multipliers in VerilogHDL....530

Devi Sivaraman and Neeraj Kr. Shukla

• **Mechanical Engineering**

Determining Handle Position for Boxes Based on Psychophysical and Physiological Studies on Male Workers

.....534

Boy Nurtjahyo Muchamad, Maya Arlini Puspasari, Erlinda Muslim, and Aisyah Iadha Nuraini
