

# International Journal of Engineering and Technology

## CONTENTS

---

---

**Volume 10, Number 3, June 2018**

• **Concrete Design and Building Materials Management**

Application and Mechanics Analysis of Multi-function Construction Platforms in Prefabricated-concrete Construction.....214  
*Rong Xu, Meihua Wang, Rongshuai Li, and Wenze Zhang*

Classification of Travertine Tiles with Supervised and Unsupervised Classifiers and Quality Control.....221  
*Nazan Kemaloglu, Tuncay Aydoğan, and Sedat Metlek*

Multi-agent Simulation-Based Collaborative Inventory Management to Architecture Prefabricated Components .....227  
*Du Juan, Gao Bonan, and Yuan Fan*

Porosity and Water Absorption of Aerated Concrete with Varying Aluminium Powder Content.....234  
*Rana Shabbar, Paul Nedwell, and Zhangjian Wu*

Using CFRP NSM Technique with Roots Planted in Concrete to Strength of Prism Beam for Shear.....239  
*Douread R. Hassen, Abdul Aziz Abdul Samad, Noridah Binti Mohamad, Alyaa A. Azeez, and Ali Naji Attiyah*

• **Geological Engineering and Environmental Management**

... ARich Past... A Smart and Sustainable Future.....243  
*Ahmed Khalil*

Construction of 3D Rainfall Threshold Surface for Debris Flow Warning .....249  
*Chien-Yuan Chen and Ho-Wen Chen*

A Hybrid Model of Max-Min Ant System with Genetic Algorithm For Improved To Travelling Salesman Problem.....254  
*Tuncay Aydoğan and Raed Al-Badri*

Applying Principle Component Analysis to Explore Climatic Variability in Northern of Thailand.....259  
*D. Prangchumpol*

• **Mechanical and Electrical System Design and Control**

Design Optimization of Disc Brake for Reducing Squeal Noise by Frequency Sensitivity Analysis.....263  
*Bawoo Cha, Taeksu Jung, Yunhwa Hong, Sungsu Park, Cheongmin Kim, Younghoon Hong, and Chongdu Cho*

Design of Simulation for Transient Stability Analysis in Smart Grid by Using Critical Clearing Time Index...269  
*Hartono and Ming-Tse Kuo*
