

International Journal of Engineering and Technology

CONTENTS

Volume 8, Number 6, December 2016

• Mechanical Engineering and Electromechanical Control Technology

- Solar Oven Manufactured from a EPS Thermal Box.....389
Luiz Guilherme Meira Souza, Luiz Guilherme Vieira Meira de Souza, Jailton Weber Gomes, Carlos Roberto Rocha da Silva, Natanaelyle Randemberg Gomes dos Santos, and Larissa Caroline Fernandes Costa
- Experimental Analyses of Terrain Factors to Performance of Sensor Placement Optimization in 3D Environments.....394
Dang Thanh Hai, Nguyen Thi Tam, Le Hoang Son, and Vinh Trong Le
- Failure Analysis: Case Study Challenger SRB Field Joint.....401
Kouroush Jenab and Saeid Moslehpour
- Tool Wear of Aluminum / Chromium / Tungsten / Silicon-Based-Coated Cemented Carbide Tools in Cutting of Hardened Steel.....406
Tadahiro Wada and Hiroyuki Hanyu
- Optical Properties of Front and Second Surface Silver-Based and Molybdenum-Based Mirrors.....410
Houda Ennaceri, Abdelilah Benyoussef, Ahmed Ennaoui, and Asmae Khaldoun
- Low Cost, High Power Factor, Dimmable, Monolithic AC-Direct LED Driver with on-Chip Step-Dimmer for Outdoor Lighting Applications.....414
Van Ha Nguyen, Sanguk Nam, Kilsoo Seo, Yongsu Park, and Hanjung Song
- Parameters Identification and Estimation in Power System Based on Lagrange Multiplier and Variable Step Integration Algorithm.....418
Xinyi Wang and Zhi Liu
- #### • Remote Sensing Technology and Image Processing
- A Novel Framework Using Graph-Based Clustering for Dental X-Ray Image Search in Medical Diagnosis422
Tran Manh Tuan and Le Hoang Son
- The South Ion-Absorbed Rare Earth Mine Area Remote Sensing Monitoring in South of Jiangxi Province, China.....428
Yan Peng, Guojin He, and Zhaoming Zhang
- Application of Remote Sensing Technology to the Ecology Quality Evaluation of Opencast Mine Area.....434
Guojin He and Yan Peng
- #### • Computer Application Technology
- Efficient Utilization of FlexRay Network Using Parameter Optimization Method.....439

Y. X. Wang, Y. H. Xu, and Y. N. Xu

What-If Analysis and Debugging Using Provenance Models of Scientific Workflows.....444
Gulustan Dogan

Optimized Multi Class SVM Classifier for Named Entity Extraction for Workflow Scheduling in Cloud.....449
Jyothi Bellary and E. Keshava Reddy

Iphone Apps ForCarcinoma / Melonoma Cancer Early Detections Using ABCDE's Steps Method.....453
Marvin Chandra Wijaya

Secure Cloaking Area Based on User Profile Similarity.....458
Priti Jagwani and Saroj Kaushik

• **Engineering Application and Technology**

Flow Pattern and Stress Distribution around Three Spur Dike in Ninety Degree Bend.....454
Salamatian, S. A., Forghani, M., and Karimae Tabarestani, M.
