International Journal of Engineering and Technology

CONTENTS

Volume 9, Number 3, June 2017

- **Concrete Structure Design**

Effect of Thermal Stimulation of Admixture to Workability of the Mortar.....183
M. S. Salehi, Z. Tahery, S. Sasaki, and S. Date

Parametric Analysis of Seismic Behavior for Steel-to-Concrete Connection Subjected to Combined Moment and Shear Loading.....189
Lei Xu, Qun Xie, and Chang-Liang Sun

Study on the Durability of Concrete Lining by Using Early-Strength Agent.....194
T. Yokoyama, Y. Uno, S. Hashimoto, and S. Date

- **Housing Design and Construction Management**

Analysis of Circadian Stimulus and Visual Comfort Provided by Window Design in Architecture.....198
I. Acosta, J. F. Molina, and M. A. Campano

The Energy Saving Effect of Different Wall Insulation Configurations with the Intermittent and Compartmental Heating Method.....205
Fang Ruan, Xiaoqian Qian, and Kuangliang Qian

Construction Contractor Selection in Taiwan Using AHP.....211
Fu-Yuan Chiang, Vincent F. Yu, and Pin Luarn

- **Geotechnical Engineering**

Evaluation of Conversion Coefficients of Design Base Acceleration to Accelerations of Other Seismic Risk Levels.....216
Mussa Mahmoudi and Shahram Seyedi

Variations in Pressuremeter Testing Results.....222
Radhi Alzubaidi

- **Urban Planning and Development**

Analyses the Driving Forces for Urban Growth by Using IDRISI®Selva Models Abouelreesh — Aswan as a Case Study.....226
Omar Hamdy, Shichen Zhao, Mohamed A. Salheen, and Y. Y. Eid

- **Marine Engineering**

Shoreline Change Analysis of Peat Soil Beach in Bengkalis Island Based on GIS and RS.....233
Sigit Sutikno, Ari Sandhyavitri, Muhammad Haidar, and Koichi Yamamoto

A Study of the Asymmetric Wave Parameterize.....239
Yun-Chih Chiang, Sung-Shan Hsiao, Hui-Ming Fang, and Hsing-Yu Wang

An Experimental Method for Evaluating the Overturn Moment of Submerged Structures.....244
Young-Jun You, Youn-Ju Jeong, and Min-Su Park

- **Power System and Application**

Short-Term Electric Load Forecasting Based on Data Mining.....250
Han Wu, Dongxiao Niu, and Zongyun Song

- **Computer Theory and Application**

Parallel Tracking and Mapping of a Fleet of Quad-Rotor.....254
M. Bazin, I. Bouguir, D. Combe, V. Germain, and G. Lassade

A Framework for Socialisable and Expirable Mobile Apps Built by Non-programmers.....258
Hin-Wah Yip, Karl Kwan, and Ying-Ming Ng

- **Geoinfomatics**

Comparison of Ionosphere at Middle Latitude Zone during Solar Maximum and Solar Minimum.....262
Tharapong Sukcharoen, Jingnong Weng, Teetat Charoenkalunyuta, and Falin Wu
