

International Journal of Engineering and Technology

CONTENTS

Volume 11, Number 2, April 2019

• Building Material Design and Performance Analysis

Dynamic Analysis of Cementitious Composites.....75

Fan Wang and Chuanguo Zhong

Simulating Progressive Failure of CFRP Materials with Fiber Waviness and Resin.....83

Zhihua Ning, Chunxiu Xu, and Guanliang Huo

A Study on the Performance of Segment Used for.....91

Jeyoung Park, Sungwook Hwang, and Youngshik Park

Impact of Selected Architectural Concrete Modifications on Mechanical Parameters.....97

Martin Tazky, Lucia Osuska, Petr Novosad, and Rudolf Hela

High-Performance Cement Composite for Architectural Elements with Elimination of Micro.....101

Lucia Osuská, Martin Ťažký, and Rudolf Hela

• Architectural Design and Engineering Management

Analysis of Visual Comfort and Circadian Stimulus Provided by Window Design in Educational.....105

I. Acosta, M. A. Campano, J. F. Molina, and J. Fernández-Agüera

A Short Review on the Active Control Approaches in Earthquake Engineering at the Last 10 Years (2008-2018).....111

Arcan Yanik and Unal Aldemir

Development of BIM-Based Innovative Workflow for Architecture, Engineering and Construction.....119

Chao Chen and Llewellyn Tang

Optimization of the Window Design in Offices for a Proper Circadian Stimulus: Case Study in Madrid.....127

M.A. Campano, M. T. Aguilar, J. Fernández-Agüera, and S. Domínguez

• Power Machinery and Applied Mechanics

Theoretical Investigation to Develop a Fit-for-Purpose CFD Code to Simulate Transient Incompressible.....132

Amir Alwazzan

Stability Analysis of a Hybrid Power Plant: An Analysis through ETAP Software.....139

Md. Shazzadul Islam and Muhammad Fayyaz Khan

• Electronics and Electrical Engineering

Roadmap for User-Performance Drive Lighting Management Logic.....143

R. M. López, M. T. Aguilar, S. Domínguez-Amarillo, and M. A. Campano

Design of Digital Circuit Online Examination System.....150
Qian Cheng, Ziyang Wang, and Xiaodan Wang
