

# International Journal of Engineering and Technology

## CONTENTS

---

---

### Volume 11, Number 3, June 2019

#### • **Building Material Performance Testing and Analysis**

A Comparative Study of the Environmental Impact from Transportation of Prefabricated Building Elements Using Wood or Concrete ..... 154

*Fredrik Lindblad, Karolina Lehman, and Elina Aggerstam*

Enhancing the Mechanical Properties of Concrete Using Pitch-Based Carbon Fibers ..... 162

*H. Almuhanna*

The Kinematic Evaluation of Shoulder and Elbow Joints for Different Walking Speeds..... 169

*Jae Ho Kim, Jaejin Hwang, Myung-Chul Jung, and Seung-Min Moa*

3D Printable Composites for Productive and Sustainable Built Environment ..... 173

*Sook-Fun Wong, Kim-Cheng Tan, Wen-Suey Ferne Leong, and Yin-Yen Lim*

Compressive Strength of Marginal Lateritic Soil Stabilized with Bottom Ash Geopolymer as a Pavement Material..... 177

*Cherdsak Suksiripattanapong, Niti Tuntawoot, Jaksada Thumrongvut, Nattiya Wonglakorn, Suppharutchaya Chongutsah, and Wisitsak Tabyang*

#### • **Architectural Design and Structural Engineering**

Optimization of Vehicle-Induced Vibration and Structure-Borne Noise of Bridge Based on Computing ..... 181

*Pei Wang and Yong Ding*

Market Development Barriers for the Swedish Wooden Multi-family House Industry..... 187

*Fredrik Lindblad*

Comparison between Rental Housing Construction in China and the United States and Its Reflections ..... 196

*Jun Wang and Xi Chen*

Flexural Response of JFRP and BFRP Strengthened RC Beams ..... 203

*Panuwat Joyklad, Suniti Suparp, and Qudeer Hussain*

Discrete Element Modelling of Triaxial Compression Test of QH-E Lunar Soil Simulant under Hydrostatic Compression ..... 208

*Yunli Li, Weilie Zou, Wenping Wu, and Xihua Chu*

#### • **Computer Information Technology**

Influence Calculation Model of Microblog User Based on Content, Emotion and Users' Behavior..... 212

*Fu Xie, Xueying Sun, and Fengming Liu*

- **Robot Design and Control**

Dimensional Synthesis of Kinematic Dexterity and Workspace for 3-DOF Parallel Manipulator ..... 218

*Ruixia Li and Fenxia Li*
