

International Journal of Engineering and Technology

CONTENTS

Volume 11, Number 4, August 2019

• Architectural Engineering

- Risk Analysis and Treatment on Seepage and Breaking of Tailings Dam 224
Guangming Yu, Yingnian Yu, Daning Wang, Irina V. Menshova, and Xiankun Zeng
- Renovation of Flat Roofs without the Need to Remove the Existing Roof Deck 230
Lukáš Janda, Marek Kervitcer, Vladimír Tichomirov, and Jiří Rozsypal
- Parametric Finite Element Analysis for the Modular Expansion Device of Long-Span Bridge 235
Fang Wu, Jianwu Pan, and Minghua Zhou
- Subjective Ratings of Floor Slippery on Common Indoor and Outdoor Floors 241
Oyun-Erdene Enkhjargal and Kai Way Li
- Effect of the Flue of Charcoal Retort Kilns on Production Charcoal Using Drum Kilns for Households 245
Rungtawee Padakan

• Industrial Engineering

- Identification of Parameters for a Social Force Model in Evacuation Simulation Using Evolutionary
Computation 249
Tetsuya Miyoshi
- Improvement of a Lightweight Power Assist Suit for Nursing Care 256
Chiharu Ishii and Kotaro Yoshida
- Effect of Thermal Stimulation on Various Characteristics of Superplasticizer 262
Mizuki Takigawa, Yu Bomura, Shin-ichiro Hashimoto, and Shigeyuki Date
- Shear Strengthening of RC Beams Using Polyester Rope 267
Suniti Suparp, Panuwat Joyklad, and Qudeer Hussain
- Factors Affecting Trunk Fatigue and the Maximum Endurance Time of One-leg Static Squat 272
Wenbao Li, Kai Way Li, Jingjing Chen, and Bin Feng
