CONTENTS

Volume 7, Number 1, February 2015

• Civil and Environmental Engineer

- Flexural Characteristics of Reinforced Concrete Beam Using Styrofoam Filled Concrete (SFC) in Tension Zone
.....1
Yasser, Herman Parung, Muhammad W. Tjaronge, and Rudy Djamaluddin
- Dynamic Characteristics Estimation of Cable-Stayed Bridge Using Artificial Filter Bank (AFB)..... 8
Gwanghee Heo and Joonryong Jeon
- Rainfall Thresholds for Homeland Security in Mountainous Townships of Taiwan during Typhoon Morakot...12
Chien-Yuan Chen and Jui-Tang Chiang
- Development of Cassette-Type Water Treatment Package System for Emergencies.....17
Ju-Suk An, Young Kyu Park, Ji Young Kim, Hyun Je Oh, and Jae-Roh Park
- Effect of Marine Environment to the Concrete Beams Strengthened Using GFRP Sheet.....21
Mufti Amir Sultan, Herman Parung, Wihardi Tjaronge, and Rudy Djamaluddin
- An Assessment on Glare from Daylight through Various Designs of Shading Devices in Hot Humid Climate,
Case Study in Kuala Lumpur, Malaysia.....25
Zuraini Denan and Noor Hanita Abdul Majid
- Structural Design and Construction of Complex-Shaped Tall Buildings.....30
Kyoung Sun Moon
- Development of Appropriate Water Treatment Packages in Mongolia.....36
Young Kyu Park, Ju-Suk An, Ji Young Kim, Chan Kyu Park, Hyun Je Oh, and Jae-Roh Park
- Forecasting Deterioration of Bridge Components from Visual Inspection Data.....40
Md Saeed Hasan, Sujeva Setunge, David W. Law, and Yew-Chin Koay
- Ultimate Experiment of Ruptured Concrete Beams Strengthened Using GFRP-Sheet after Fatigue Loads.....45
Arbain Tata, Herman Parung, Wihardi Tjaronge, and Rudy Djamaluddin
- Developing a Sustainable City in a Tropical Area to Create a Balance between Vegetation and Water Bodies
.....50
Syedehzahra Mirrahimi, Nik Lukman Nik Ibrahim, and Mastor Surat
- #### • Mechanical Engineer and Material Science
- A Study on the Manufacturing of Through-Hole Al₂O₃ Scaffolds with Ceramic Powders in Different Grain
Diameters.....55
Fwu-Hsing Liu, Chih-Yang Lin, Yu-Heng Liu, and Yunn-Shiuan Liao

Mechanical and Microstructural Characterization of Alkali-Activated Materials Based on Fly Ash and Slag...59	
<i>Maochieh Chi, Yenchun Liu, and Ran Huang</i>	
• Electronics and Communication Engineer	
Research of Multiple Sensors Adaptive Fault-Tolerant Control Based on T-S Fuzzy Model for EMB System..65	
<i>Y. N. Xu and W. W. Deng</i>	
The Capacitance Modulated by the Convolution between Optical and Electrical Signals Using the GaAsN/GaAs Quantum Well.....70	
<i>Jia-Feng Wang, Chin-Pin Huang, Chen-Hao Lin, and Jenn-Fang Chen</i>	
Indoor Way Finding Using Interactive Map.....75	
<i>Seunghae Lee, Eun Young Kim, and Paul Platosh</i>
